RCS
ROYAL CARE
SLABS

On 60th Anniversary of Make in India initiative,
JOHNSON PORSELANO presents - **Royal Care Slabs.**

The best in class large size, fully vitrified slabs and splits for your walls and floors ensuring hygiene, ease of maintenance and durability along with the element of aesthetics which is contemporary and fits in your plan of overall ambience of the space you are creating!

Not just another run of the mill large size tile, the new series, Johnson Porcelano RCS comes with the element of trust. Trust of millions of customers and users across continents.

The finest quality of raw materials, with the latest production technologies and decades of R&D in ceramic engineering, ensures the best in class tiling options with distinct advantages over similar looking options in the market.

VERSATILE

With negligible water absorption, RCS comes in multiple modular formats for variety of applications on floors as well as walls. A selection from this range can even be used for exterior wall and floor applications.

To break the monotony or create an altogether different effect you can use the elongated versions called splits along with the larger formats on walls & floors. The splits range is available in two modular & balanced sizes: 20cm x120cm & 30cm x120cm.

THE CARE[®] ADVANTAGE

Each Royal Care Slab presented here is made using Johnson's Germ-Free technology. In the presence of the anti-microbial compound used in RCS punctures the cell membrane and kills the microbes. This property remains active across a wide spectrum of microbes for the entire life of these tiles.

Tested for bacteria such as – Escherichia Coli (E-Coli), Staphylococcus Aureus (MRSA), Pseudomonas Aeruginosa, Bacillus Subtilis (Grass Bacillus) and Aspergillus Niger (A. Niger-fungus). The anti-microbial effectiveness of RCS meets and exceeds international standard protocol – JIS Z2801; minimum log reduction of 2 log bacteria i.e. 99%.

The advantages of CARE[®]:

- Breeding of bacteria and fungi is curbed on the tile surface
- Stain and mold causing bacteria are inhibited
- Reduced possibilities of infection
- Control on malodour caused by bacteria
- Keeps the tile surface cleaner

Technically, all glazed and polished vitrified tile have a tendency to get minute scratches which may affect the aesthetics in the long run as the consistent reflections from the surface gets disturbed in the otherwise shining surface. The same can be minimized by effective control on dust and sand brought by the shoes on the floor and avoiding movement of heavy and sharp objects on it. Walls on the contrary do not pose any such challenge for reasons easy to understand.

All the surface effects are suitable for residential interior applications as they are not subjected to high footfall as in commercial and exterior spaces.

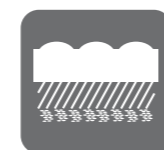

HYGIENE & CLEANLINESS

- Easy to clean and maintain
- Stain & Scratch resistant options
- Resistance to household chemicals

STRONG & DURABLE

- Resistant to deformation
- High breaking strength & MOR
- Authentic porcelain, negligible water absorption

AESTHETICS & STYLE

- Weighs less, just 9mm slim
- Comes handy to environment.

SAFE-SURFACES

- Non-toxic
- Frost & Fire resistant
- No decoloring

Moreover, the CARE[®] feature of RCS keeps the tile surface non-toxic which makes it safe for humans.

Surface Finish
Options in RCS

Surface finishes play an important role in creating an ambience to the space being designed through its touch and feel as well as the level of reflection from the tiled walls & floors.

The Royal Care Slabs collection has 5 distinct and meaningful surface finishes to match any space theme and design.

PLAZMA

Super shining, mirror-polish effect that adds charm to your choice and connects you to the glare of richness. Suitable for wall application and residential interiors.

NRS (Natural Relief Surface)

The texture on the surface supports the design element with variable relief and mimics – real wood, metal sheet and cement finish in its original form.

RASSO

This smooth, satin like matte finish comes in handy when reflection from the tiled surface is not desired.

It has a distinctive sheen and lends itself to easy maintenance. This finish is robust enough to handle normal stresses on the floor.

LISO

Polished, shining marble finish. Suitable for residential and office interior walls & floors.
